AIRPORTS

New cement and on-the-job mixing simplify
airport renovation
(Washington, D.C.)

MONTHPAGE

January

40

Paving train runs gamut from grading to
grooving
(Louisiana)

February

42

Modified rig pinpoints pile driving
(Florida)

March

28

Big groover cuts more with smaller crew
(Washington D.C.)

September

29

Careful choice of machinery solves soggy
site problems
(Switzerland)

November

20

BRIDGES

Car floats carry bridge falsework
(Connecticut)

March

45

Luffing tower cranes "grow" with Bosphorus
Bridge towers
(Turkey)

April

68

Synchronized crane duo stops traffic only
twice!
(Tennessee)

July

24

Large falsework tower and heavy lifts for
Mississippi crossing
(Tennessee)

August

52

Special drill handles big, deep caissons for
river foundation
(Arkansas)

September

22

85-ton crane maneuvers drill and hoes in
bridge pier shafts
(California)

November

8

Two-stage cofferdam solves sticky foundation
problems
(Arkansas)

December

32

BUILDINGS

With space-truss roof in place, small cranes
move in to excavate stadium floor
(Utah)

January

44

Laser ups floor and ceiling production
(Maryland)

February

10

	<u>MONTH</u>	<u>PAGE</u>
Tower crane "raises the roof" (Texas)	March	9
Sky lift places 56 tons of steel girders in 72 minutes (New Jersey)	March	21
Simple falsework holds up building wings until it all hangs down (New York)	April	22
Epoxy adhesive replaces mortar on tallest block bearing wall building (Florida)	May	26
Big lift at North Carolina nuclear plant (North Carolina)	May	44
Short-range electronic distance-measuring instrument speeds Superdome (Louisiana)	June	35
Special forms and concrete-placing system speed nuclear containment vessel (Oregon)	July	20
Augering, coring, and casing solve caisson foundation problem (Minnesota)	July	28
For Buffalo Auditorium: Roof lifting pro- vides 5,000 new seats (New York)	July	39
Special drill barges install miles of cais- sons for treatment plant (New York)	August	44
"Flying" table-form system's legs telescope to clear lintel reinforcing (California)	September	14
Form raises and adjusts itself to shape veil of cooling tower (Oregon)	September	37
Building design stays one step ahead of construction (Virginia)	October	40
Building boom creates special problems (Maryland)	November	22

	<u>MONTH</u>	<u>PAGE</u>
Special steel and glass forms mold concrete for unusual hospital (Washington)	November	34
<u>DAMS & FLOOD CONTROL</u>		
Road-type operation places soil-cement facing for dam (New Mexico)	March	15
Ring of levees and floodwalls to protect New Orleans from hurricane floods (Louisiana)	March	24
Pyramid Dam embankment grows 50,000 cubic yards per day (California)	May	8
Scrapers work double shift at Soldier Creek Dam (Utah)	June	39
Turkish dam embankment stabilized by injection. (Turkey)	August	47
Big excavator loads cubic yard/second (Arizona)	September	30
Single contract cuts cost of two earth and rock dams (California)	November	26
<u>EARTHMOVING</u>		
Scrapers cut 186-mile canal network on Romanian irrigation project (Romania)	July	13
<u>GENERAL</u>		
Electronic receiver extends laser usage (New Hampshire)	July	18
Big new machines pace reservoir paving (Michigan)	July	34
Ringer crane places dolosse to armor Humboldt Bay jetty (California)	September	24

	<u>MONTH</u>	<u>PAGE</u>
Treatment plant expansion fits new construction around old (New York)	November	11
<u>HIGHWAYS</u>		
Pump-scraper combo works borrow pits for expressway (Florida)	February	8
Crash schedule speeds busway addition to existing freeway (California)	March	34
Shovels and dozers build logging roads (Washington)	March	40
Sealed subbase minimizes reworking for base course (Florida)	April	74
Precast concrete and special equipment push Swamp Land Expressway to completion (Louisiana)	May	24
Pouring concrete in sub-zero weather by preheating forms and rebars, using tarps and thick insulation for culvert construction (New Hampshire)	May	40
Big machines aerate cuts and fills to speed earthwork on road job (Washington)	May	43
Reinforced Earth wall carries road across treacherous slide (California)	July	36
Loaders and dozers grade road through lava flows (Hawaii)	August	40
Porous rock buttresses and gabion walls stabilize slides along mountain interstate (Tennessee)	September	10
Composite form simplifies on-the-water pile cap pours (Florida)	September	16

	<u>MONTH</u>	<u>PAGE</u>
Planning and the right equipment beat earth-moving problems (Delaware)	September	18
Special jig and template aid splicing of causeway piles (Florida)	October	28
Mile-long culvert underlies street widening (Florida)	November	18
Tractor trio puts highway contractor back on schedule (Puerto Rico)	November	40
<u>MAINTENANCE</u> (see also SPECIAL--SPOTLIGHT: Maint)		
S.O.S. -- Scheduled Oil Sampling (Colorado)	February	44
Inspection Service protects owner's equipment investment (Utah)	May	18
<u>MANAGEMENT</u>		
Bear Swamp: a case for modern management and the cost-plus, fixed-fee contract (Massachusetts)	January	18
Total Service--a new concept for this contractor (New Jersey)	July	38
<u>MATERIALS</u>		
Drill pair punches basalt for jetty armor (Oregon-Washington)	April	10
<u>MEETINGS & CONVENTIONS</u>		
AGC elects Teer president (California)	April	9
Congressional support for anti-diversion at 71st ARBA (Texas)	May	34
Advice to utility contractors: "Keep gas storage tank full" (Pennsylvania)	June	42

	<u>MONTH</u>	<u>PAGE</u>
CIMA predicts '74 will be another record year (Illinois)	December	9
Wilbur, Richardson to receive Moles '74 awards (New York)	December	10
IRF covers wide range of topics (Germany)	December	10
<u>PAVING</u>		
When hot-mix prices run high, contractor offers satisfactory low-cost cold-mix for secondary road paving (New York)	October	24
<u>PIPELINES</u> (see also <u>SPECIAL-SPOTLIGHT:</u> Utilities/Pipelines/Sewers)		
"Surfing" cranes team drives piles for outfall pipeline into Atlantic (New York)	February	16
Lining rehabilitates pipeline (Alabama)	February	51
Pipelines are vital to copper mining project (Arizona)	October	34
<u>SEWERS</u> (see also <u>SPECIAL-SPOTLIGHT:</u> Utilities/Pipelines/Sewers)		
Intensive dewatering system saves time, materials (New York)	March	32
Simple tools and hand labor get sewer job done (New York)	July	8
New hoe solves stalemate (Massachusetts)	September	28
Contractor keeps dewatering simple for big outfall line (Illinois)	September	43
Excavator and loader form right combo for tight site (Florida)	November	15

	<u>MONTH</u>	<u>PAGE</u>
<u>SPECIAL</u>		
SPOTLIGHT (Part I): Equipment Rental	January	23-38
SPOTLIGHT (Part II): Insurance/Bonding/ Financing	February	27-41
CUP: multi-phase Central Utah Project means more than \$1 billion of construction (Utah)	March	38
SPOTLIGHT (Part III): Utilities/Pipelines/ Sewers	April	29-64
C&E SERIES: Power train selection--the transmission (Part I)	May	36
BONDING: (Part II)--How the surety looks at the contractor	May	30
SPOTLIGHT (Part IV): Considering the environment	June	11-34
C&E SERIES: Power train selection--the transmission (Part II)	July	30
SPOTLIGHT (Part V): Drilling, Blasting, Aggregate Production	August	9-36
SPOTLIGHT (Part VI): Maintenance	October	10-22
C&E SERIES: Equipment cost control through a simple, effective system	December	11
SPOTLIGHT (Part VII): Boring/Tunneling	December	16-31
<u>SUBWAYS & TUNNELS</u>		
Cement grout solves poor-strata problem for Belgian tunnel (Belgium)	March	47
Tunnelers modified for changing face conditions (Illinois)	July	43
Sunken tube transitions mined through concrete plugs (New York)	September	8

	<u>MONTH</u>	<u>PAGE</u>
Compact, portable forms and on-the-water concrete plant cut time and risk on sunk- en-tube tunnel (Virginia)	October	30
